SFAI Spring Public May 2016  
Education Exhibition

Piece, Blood Under These Ruffles,  
selected by Macy Chadwick for  
inclusion in the SFAI Spring 2016  
Public Education Exhibition

## EXPERIENCE

Web Developer / Designer July 2015 - Present  
Capital One | San Francisco, CA

Worked in React to create a web application that is being  
deployed nationally for customer use in Capital One  
cafes. Worked with other web developers and designers to  
support and re-design the Levelmoney web experience.  
Currently designing Capital One's new Service Locator  
Experience: <https://locations.capitalone.com/>.

Technology Intern June - August 2014  
Capital One | Richmond, VA

Designed and coded user interface and user experience  
for dashboard web-app with Angular. Created and  
conducted usability tests throughout the development  
process, including paper-prototyping, and scenario  
creation. As a finalist in Capital One's National Intern  
Case Competition, created several high-level mock-ups of  
app in Illustrator to demonstrate potential product.

User Experience Intern March - May 2014  
Are You a Human | Detroit, MI

Developed and successfully executed the user testing  
protocol that will be used in all future advertisement  
campaigns. Ran user testing on the advertisement campaign  
for the Ultimate Fighting Championship (UFC) with 50  
participants. Decreased user error by 82%, and increased  
user experience by 36%, by utilizing the new protocol.

Usability Engineering Intern June - August 2013  
Lexmark Inc. | Lexington, KY

Developed and executed usability tests on 11 software  
applications with specific focus on improving interface  
design. Prepared and presented test results and proposed  
solutions for usability issues to software and firmware  
managers.
